newline

#### 135"-189" Full HD Resolution

Available in sizes of 135", 163", and 189" to deliver a full HD and ultimate large-scale viewing experience.

#### **Ultra-narrow Bezel**

The DV ONE+ features an ultra-narrow bezel design that maximizes the screen area, offering a breathtaking, space-efficient display that delivers an unparalleled immersive viewing experience.

#### **Vivid and Accurate Color**

Experience richer, more vibrant colors with 110% NTSC, offering a wider color spectrum, enhanced dynamic range, and precise color accuracy. Perfect for delivering stunning visuals and ensuring true-to-life color representation, especially in graphics and video editing.

### All-in-One Design

A state-of-the-art All-in-One Direct View LED display, offering cutting-edge technology and a sleek design for immersive, impactful viewing in any setting.

#### **Easy Maintenance**

The DV ONE+ features an innovative rear pull-out modular design, streamlining maintenance for reduced costs and faster repairs, all while maintaining superior display performance.

#### **Enhanced Performance**

The DV ONE+ utilizes GOB technologies, enhancing the overall brightness and contrast of the LED screen for sharper, clearer images. GOB technology further boosts moisture resistance and impact protection, ensuring improved color consistency and display stability, making it ideal for use in complex environments..

## **Minimalist Design**

The Newline DV ONE+ series delivers the ultimate large-scale, immersive viewing experience with its ultra-narrow bezel and 99% screen-to-body ratio. Featuring a sleek, lightweight design and a 4mm ultra-thin frame, it maximizes screen area for a space-efficient display that captivates audiences like never before.

## **Upgraded All-in-One Design**

The Newline DV ONE+ takes the "All-in-One" experience to the next level, with an upgraded design that seamlessly integrates the modular chassis, power system, control system, signal processing, and speakers into a sleek rear pull-out box. No more complicated wiring or setup—just plug it in and enjoy an effortless, streamlined user experience from the moment you power it on.

**Control Systems** 

**Power Supplies** 

## Simplified installation and service convenience

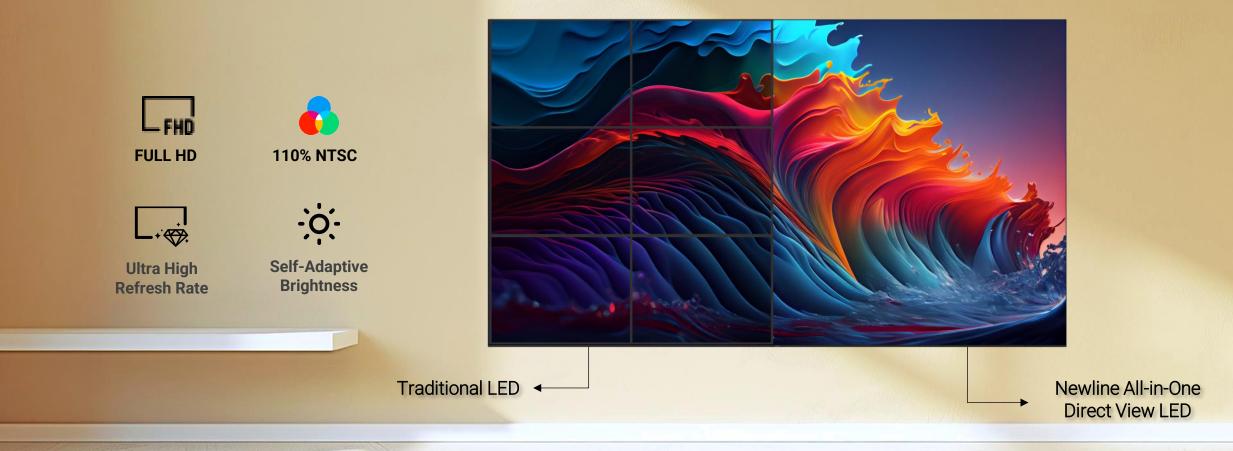

Experience the innovation of modular design, enabling quick and electrifying installation along with front-end maintenance. Enjoy the benefits of high precision and outstanding heat dissipation performance. Plus, revel in a feather-light structural design that is 50% lighter than conventional LED products. Unleash efficiency and cutting-edge technology for a seamless experience.

## **Stunning Visuals**

The DV ONE+ merges state-of-the-art SMD and GOB technology with 110% NTSC to deliver richer, more vibrant colors, along with enhanced brightness and contrast. Enjoy a broader color spectrum, precise color accuracy, and superior dynamic range for stunning, lifelike visuals. It also offers improved moisture resistance, impact protection, and exceptional color consistency.

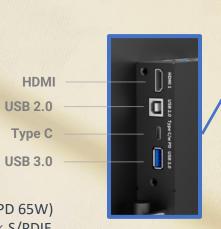

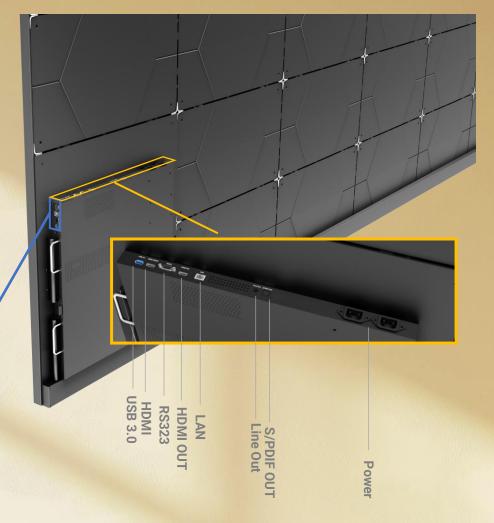

## **Multiple Interfaces**

Unlock the full potential of your DV ONE+ Series with versatile interfaces, featuring easy-access front buttons and side connections for seamless user interaction.

Side:  $1 \times$  USB 3.0 Type A,  $1 \times$  USB 2.0 Type B,  $1 \times$  HDMI In,  $1 \times$  Type C(PD 65W) Rear:  $1 \times$  HDMI In,  $1 \times$  HDMI Out,  $1 \times$  USB 3.0 Type A,  $1 \times$  Line Out,  $1 \times$  S/PDIF Out,  $1 \times$  LAN In,  $1 \times$  RS232

### **Ease of Maintenance**

The DV ONE+ features an innovative rear pull-out modular design, streamlining maintenance for reduced costs and faster repairs, all while maintaining superior display performance.

## **Efficient Collaboration**

Newline DV ONE+ is equipped with the Android 13 system and built-in speakers, paired with the Newline Cast+ software for seamless integration and versatile application capabilities. Whether in educational or business settings, it delivers a flawless user experience.
